

Instructions for preparing a full paper

Authors who wish to publish full papers presented at Conference have the opportunity to publish in the Proceedings and in the journal "Environmental Engineering - Environmental Engineering", according to the following instructions:

Proceedings of Conference:

- All papers that pass the review by the Conference Scientific Committee will be published in the digital Conference Proceedings (scheduled for April 2023),
- The paper must be written in English, or in Croatian with a mandatory abstract in English,
- Papers in Croatian (with English abstract) will be published only in the digital Conference Proceedings,
- Authors of papers in English may request that their paper only be published in the Conference Proceedings.

Journal Environmental Engineering - Inženjerstvo okoliša

- Papers in English that additionally pass the review process of the journal "Environmental Engineering - Inženjerstvo Okoliša" (ISSN 1849-4714 (Print), eISSN 1849-5079 (Online)) will be published in a special thematic issue of the journal (Vol 9, No.2, 2022).
- The paper will first be published online, and then in the printed edition
- Authors will receive one printed copy of the journal in which the paper was published
- If the author wishes to publish the conference paper in another journal, they must arrange this independently and no later than March 31, 2023. This will rule out the possibility of publishing in the journal "Environmental Engineering", and the author must obtain permission from their chosen journal for a reference reprint of the paper in the digital Conference.

Papers should be sent by to the conference email address by July 31, 2022: konferencija@huszpo.hr

We ask all authors (both of papers in English and in Croatian with an English abstract) to adhere to the technical instructions and the predefined template as specified by "Environmental Engineering - Inženjerstvo Okoliša", which can be downloaded at the link:
